At-Large Selection Process

In situations where the winner (singles or doubles) of an USTA/ITA Small College Regional Championship declines the invitation to the USTA/ITA National Small College Championships, the position will be filled with an "At-Large" selection.

- A. The procedure used to make each at-large selection for NCAA Division II and NAIA singles and doubles will be as follows:
 1. *The runner-up* from the regional tournament from which the winner declined the invitation will be first considered. If the runner-up declines, then . . .
 2. The invitation will be given to *the next highest ranked player or "in tact" doubles team from last year's final rankings, who also participated in the current year's USTA/ITA Regional Championship*. If this player(s) also declines, then . . .
 3. The invitation will be given to *a player(s) from the pool of regional finalist from any USTA/ITA Regional Championship within that Division*, who has been selected by the Divisional Committee. If this invitation is declined, then . . .
 4. The invitation will be given to the player(s) who has been selected by the Divisional Committee.
- B. The procedure used to make each at-large selection for Junior College singles and doubles will be as follows:
 1. Items "ii" and "iii" are reversed so that the "pool of finalists" from all Regional Championships will be considered for "at-large" selections prior to selection based on the prior year's ITA Rankings.
 2. In situations where an alternate must be selected on site due to a late withdrawal and an alternate using the above criteria is not available; an on-site games committee from within that division will make a selection based on the pool of players/doubles teams available to play on site (*Revised 12/03; Clarified 12/02, ITA Small College Operating Committee Meeting*).
- C. The procedure used to make each at-large selection for NCAA Division III singles and doubles will be as follows:
 1. In situations where the winner (singles or doubles) of a USTA/ITA Small College Regional Championship declines the invitation to the USTA/ITA National Small College Championships, the position will be filled with an "At-Large" selection. The procedure used to make each at-large selection will be as follows:
 - a. The runner-up from the regional tournament from which the winner declined the invitation will be first considered. If the runner-up declines, then . . .

- b. The invitation will be given to a regional tournament finalist that was ranked highest in the previous season's national top 20 rankings. If the invitation is declined by all players eligible under these criteria, then...
- c. The invitation will be given to a first-year player (or non-top 20 nationally ranking player from the previous season) who was a regional finalist, and who beat the next highest nationally ranked player from the previous season's rankings en route to the regional finals. This selection would need to be discussed with the ITA Division III National Committee (committee members with a player being considered for this at-large selection would be required to withdraw from the discussion). If the invitation is declined by all players eligible under these criteria, then...
- d. The invitation will be given to a regional tournament semi-finalist as determined by the ITA Division III National Committee. The regional semi-finalist must be from a region in which the regional finalist was offered the at-large bid and declined. This selection would need to be discussed with the ITA Division III National Committee (committee members with a player being considered for this at-large selection would be required to withdraw from the discussion).

Seeding

When making the draw for each Division, 4 singles players and 4 doubles teams shall be seeded (See ITA Regulation III.A.4. "The Draw" for additional draw making criteria).

Division III only: Seeding will be based on the following criteria:

1. Current year regional performance
2. Previous year performance (end of year rankings). For first year players, seeding should consider performance against previous year performers (direct or indirect wins in the regional tournament or fall play).
3. A player receiving an at-large bid to the USTA/ITA National Small College Championships cannot be seeded ahead of another player in the draw that defeated the at-large recipient in the regional tournament. (*Adopted 12/06, ITA Small College Operating Committee Meeting*).
